

ITP 30002-02 Operating System

# Course Introduction

Shin Hong

# In this class

- greet each other
- check various class setting
- overview the course plan

# ITP 30002-02 Class Members – Director & TAs

3

- Shin Hong
  - Class director: lead lecture, manage classes, design learning materials
  - OH 313
  - <https://hongshin.github.io>
  - [hongshin@handong.edu](mailto:hongshin@handong.edu)
- Teaching assistants: <http://arise.handong.edu>

Jeewoong Kim

Suhyun Park

Sungbin Lim

Course Intro.,  
ITP 30002  
Operating System

# ITP 30002-02 Class Members - Students

4

- total 50 students

Major

■ CS as single major  
■ IT as 1st major  
■ IT as 2nd major  
■ CS as 1st major  
■ CS as 2nd major  
■ Others

Department

■ CSEE  
■ GE-ICT  
■ Law  
■ Counsel-welfare  
■ Biz-Eco  
■ GLS  
■ Bio Sci  
■ Creative Conv.

Fresher vs. Retaker

■ Fresher  
■ Retaker

Course Intro.,  
ITP 30002  
Operating System

# Class Objectives

- Understand key concepts and principles in designing operating systems
- Have an overview of the designs and implementations of contemporary operating systems
- Have essential experiences of Linux system programming

# Learning Materials

- *Operating Systems: Three Easy Pieces*

- R. H. Arpaci-Dusseau and A. C. Arpaci-Dusseau
- <http://pages.cs.wisc.edu/~remzi/OSTEP/>
- lecture notes will be shared via the class github  
<https://github.com/hongshin/OperatingSystem>

- Secondary materials

- *xv6: a simple, Unix-like teaching operating system*, revision 8  
<https://pdos.csail.mit.edu/6.828/2014/xv6/book-rev8.pdf>
- *How Linux Works*, 3<sup>rd</sup> edition by Brian Ward

- Handong students can access full-text online via O'Reilly Higher Education

- Other resources

- *The Linux Programming Interface* by Michael Kerrisk
  - Handong students can access full-text online via O'Reilly Higher Education
- lecture notes of the previous ITP 30002 classes  
<https://github.com/hongshin/OperatingSystem/tree/2020spring/notes>

# Schedule

7

| Week | Textbook coverage                       |
|------|---|
| 1    | Overview: Chapters 1 and 2 (18 pages)   |
| 2    | Process: Chapters 3, 4 and 5 (23 pages) |
| 3    | Process: Chapters 6, 7 and 8 (38 pages) |
| 4    | Process: Chapters 9 and 11 (11 pages)   |
| 5    | Memory: Chapters 13--16 (34 pages)      |
| 6    | Memory: Chapters 17--19 (42 pages)      |
| 7    | Memory: Chapters 20 and 21 (20 pages)   |
| 8    | ** midterm **                           |

| Week | Textbook coverage                              |
|------|--|
| 9    | Memory: Chapters 22 and 23 (31 pages)          |
| 10   | Concurrency: Chapters 26 and 27 (20 pages)     |
| 11   | Concurrency: Chapters 28--30 (45 pages)        |
| 12   | Concurrency: Chapters 31 and 32 (27 pages)     |
| 13   | File system: Chapters 35, 36 and 37 (28 pages) |
| 14   | File system: Chapters 38 and 39 (38 pages)     |
| 15   | File system: Chapters 40 and 41 (27 pages)     |
| 16   | ** final exam **                               |

Course Intro.,  
ITP 30002  
Operating System

# Class Meetings

8

- in-person meeting by default
  - starts at 11:30 AM, every Mon and Thur
  - placed at OH 305
- check attendance at the beginning of each class
  - be prepared to answer back when your name is called
  - to avoid confusion, please do not check-in with NFC
- online class will be offered exceptional cases
  - in real time via Zoom, or as a video record
  - if the lecture is off campus for attending conferences or meetings
  - if social distancing is enforced by the government

# Communication

9

- Slack – join via [https://join.slack.com/t/hongshinclassroom/shared\\_invite/zt-1pudyaskn-S75ZjeXhjkQXJssflrZJ7Q](https://join.slack.com/t/hongshinclassroom/shared_invite/zt-1pudyaskn-S75ZjeXhjkQXJssflrZJ7Q)
  - for announcement (primary), timely notice, in-class interaction, administrative request, direct messaging
  - channels
    - #os-ity30002-02, #adminrequest, #random, #peace
- Github <http://github.com/hongshin/OperatingSystem>
  - study materials (lecture note, homework assignment, etc.)
- Hisnet LMS
  - homework submission & attendance record
  - repeat Slack message for backup

# Homework

- 4 to 6 assignments throughout the semester
  - system programming
    - given as two-persons teamwork
  - exercise problem solving
  - essay writing

# Reading Group

- consists of 4 or 5 random students
- must have a meeting and submit a report on a weekly basis
  - reading assignment will be announced every Monday class
    - textbook chapters, or programming exercise
  - a meeting should be at least 30 min
  - a report summarizes the discussions and the questions in the meeting
    - meeting reports will be opened and shared in all class members
    - a reading group will be evaluated based on their submitted meeting reports
  - a meeting report must be submitted by 10 AM on the next Monday
- will be re-arranged twice in the semester (i.e., three teams)
  - peer evaluation will follow immediately after rearrangement

Course Intro.,  
ITP 30002  
Operating System

# Proportion of Evaluation

12

- Exam: 40%
  - 2 or 3 times
- Homework: 40%
- Reading group: 10%
- Class contribution: 10%
  - attendance
  - in-class discussion

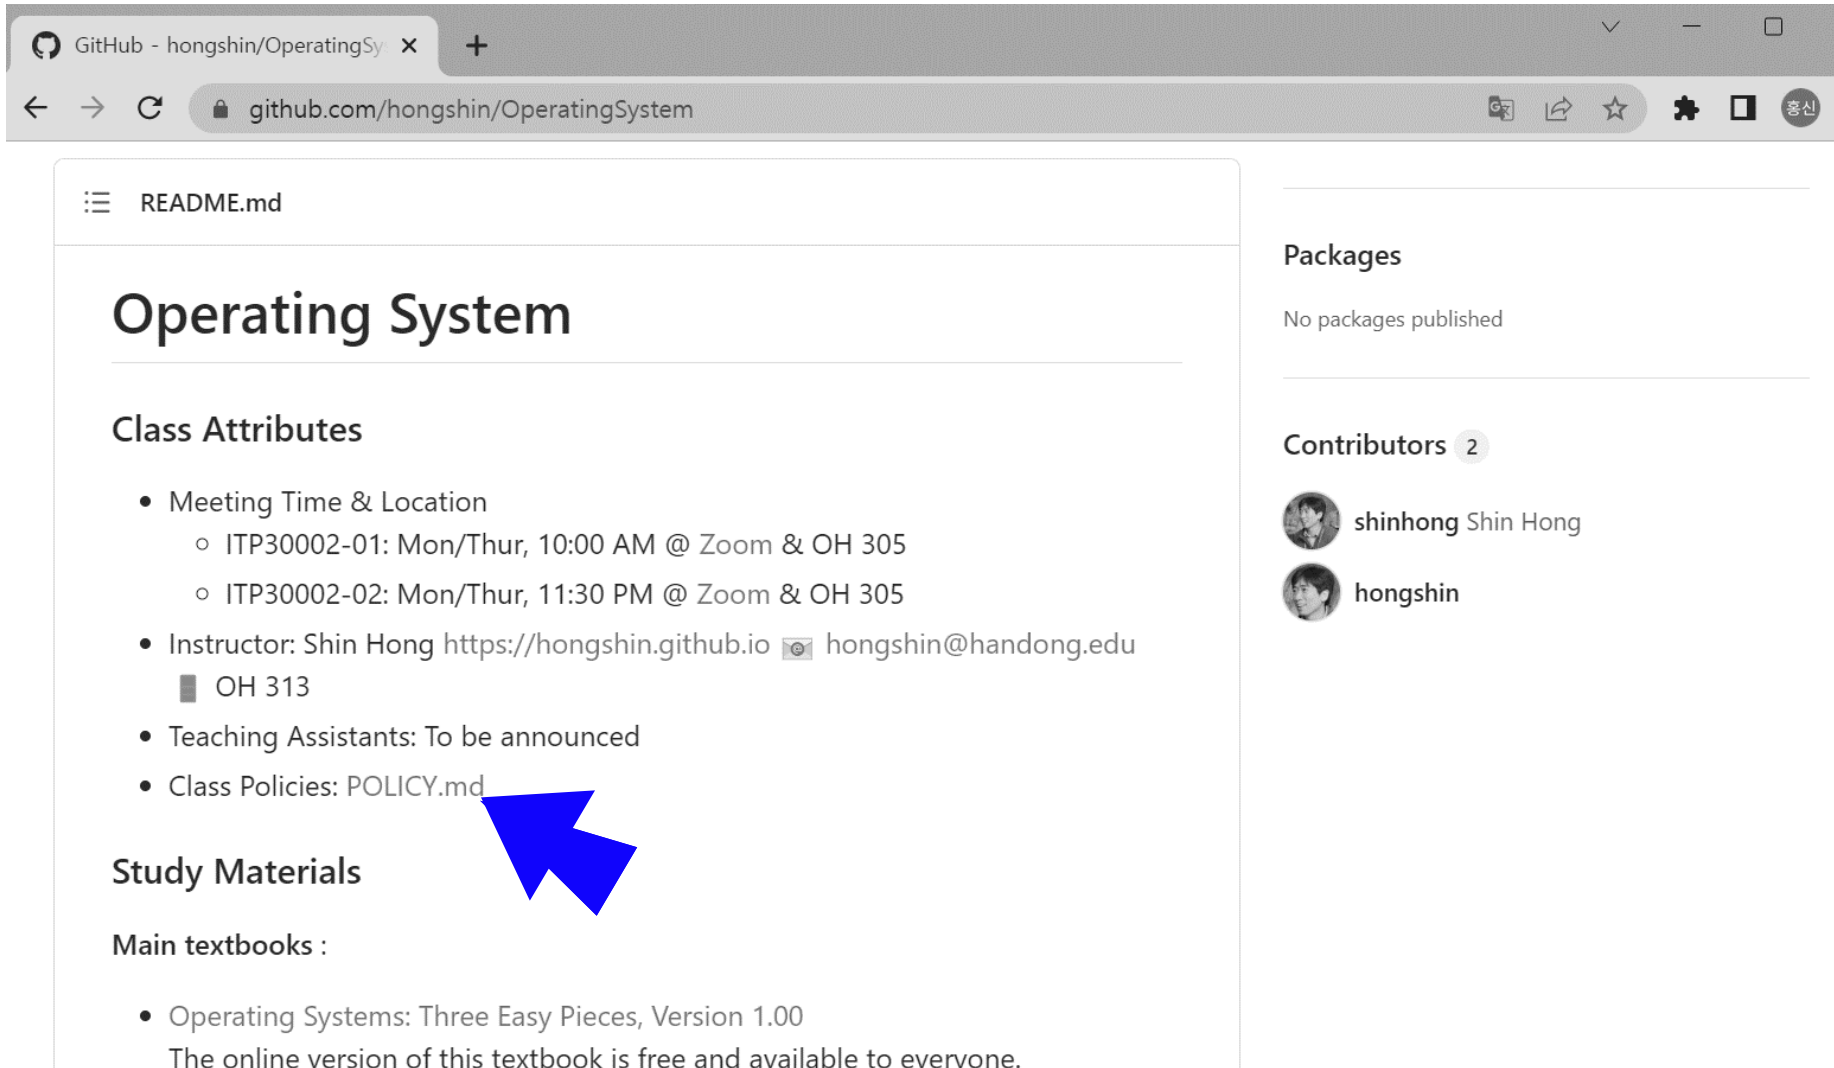

# Discussion Contribution

- Your question, answers or in a class time is considered as discussion contribution
- Declare your discussion contribution point by leaving a comment on the corresponding cell at the google spreadsheet
  - [https://join.slack.com/t/hongshinclassroom/shared\\_invite/zt-1pudyaskn-S75ZjeXhjkQXJssflrZJ7Q](https://join.slack.com/t/hongshinclassroom/shared_invite/zt-1pudyaskn-S75ZjeXhjkQXJssflrZJ7Q)

# Class Policies

14

README.md

## Operating System

### Class Attributes

- Meeting Time & Location
  - ITP30002-01: Mon/Thur, 10:00 AM @ Zoom & OH 305
  - ITP30002-02: Mon/Thur, 11:30 PM @ Zoom & OH 305
- Instructor: Shin Hong <https://hongshin.github.io>  hongshin@handong.edu
- Teaching Assistants: To be announced
- Class Policies: [POLICY.md](#)

### Study Materials

Main textbooks :

- Operating Systems: Three Easy Pieces, Version 1.00

The online version of this textbook is free and available to everyone.

### Packages

No packages published

### Contributors 2

-  shinhong Shin Hong
-  hongshin

Course Intro.,  
ITP 30002  
Operating System

# Ground Rules

- Students learn course subjects by reading textbooks, solving exercise problems and doing homework primary
  - not by receiving things at class meeting
  - the major purpose of a class meeting is interactive discussion
- Students are expected to spend at least 6 hours per week to follow up what's covered in the classes (3 hours) of the week
  - beside the time for homework and meetings
- In doing homework, finding and understanding requirements is a crucial task that each student needs to accomplish by oneself

# Study Guidelines

16

- Read, read, read textbook
  - buy the textbook and keep it near you
  - read regularly
  - use a dictionary if you find an unfamiliar word
  - use your hands to repeat examples
  - memorize definitions
  - peruse stories in boxes
  - never expect that all materials will be covered at class time
- Solve exercise problems by yourself
  - read the problem sentence carefully
  - write down an answer completely, and never stop at a middle
  - do have a group study
- Try best to think together (i.e., discuss) at a meeting time
  - participate or loss the time

Course overview

2023-02-27

# Homework 1

- Submit the course entrance survey
  - tasks
    - join in Slack workspace [https://join.slack.com/t/hongshinclassroom/shared\\_invite/zt-1pudyaskn-S75ZjeXhjkQXJssflrZJ7Q](https://join.slack.com/t/hongshinclassroom/shared_invite/zt-1pudyaskn-S75ZjeXhjkQXJssflrZJ7Q)
    - create Peace account <https://sites.google.com/handong.ac.kr/peace>
    - submit entrance survey <https://forms.gle/Snikxuy63KNSiidT7>
  - deadline: 9 PM, Mar 1<sup>st</sup> (Wed) (strict)
  - evaluation: taking 15% of the homework score
